On December 5, 1990, James P. Dwyer of this office conducted a routine safety inspection at the above address of activities authorized by the above listed NRC license. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. The findings of the inspection were discussed with Richard Hartline at the conclusion of the inspection. This also refers to the telephone conversation on December 20, 1990 between Mr. Hartline and Mr. Dwyer.

Based on the results of this inspection, it appears that your activities were not conducted in full compliance with NRC requirements. You are required to respond to this letter and in preparing your response, you should follow the instructions in Appendix A.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.
