Subject: Response to Request for Additional Information Concerning
WCAP-10924-P-A, Volume 1, Addendum 4

Reference: NS-NRC-90-3551

Dear Ms. Wilson:

Enclosed are five (5) copies of additional information relative to WCAP-10924-P, Volume 1; "Westinghouse Large Break LOCA Best Estimate Methodology: Model Description and Validation," Addendum 4, "Model Revisions" [Proprietary]. The additional information was requested by Mr. Clifford Fineman of INEL for his review of the report and was previously provided to him informally. Included are additional figures which supplement those in the reference and a response to an additional question.

If you have any questions on this information, please contact either Mr. R. D. Ankney (412) 374-4181, or Dr. L. E. Hochreiter (412) 374-5158.

Note that at this time, only the proprietary version of these responses, appropriately bracketed to identify proprietary information, have been provided. This is consistent with the guidelines given in NUREG-0390, Volume 6, No. 1, "Topical Report Review Status." Westinghouse will submit a corresponding non-proprietary version of the technical report which incorporates this information upon receipt of an NRC acceptance letter and SER.

This submittal contains Westinghouse proprietary information of trade secrets, commercial, or financial information which we consider privileged or confidential pursuant to 10CFR9.5 (4). Therefore, it is requested that the Westinghouse proprietary information attached hereto be handled on a confidential basis and be withheld from public disclosure.

This material is for your internal use only and may be used only for the purpose for which it is submitted. It should not be otherwise used, disclosed, duplicated or disseminated, in whole or in part, to any other person or organization outside the Office of Nuclear Reactor Regulation without the express written approval of Westinghouse.

Correspondence with respect to any Application for Withholding should reference AW-91-127 and should be addressed to Mr R. P. Dipiazza, Manager of Operating Plant Licensing Support, Westinghouse Electric Corporation, P.O. Box 355, Pittsburgh, Pennsylvania 15230-0355.

Very truly yours,

W. J. Johnson, Manager
Nuclear Safety Department
