License No. SUA-1401

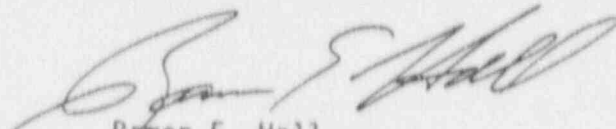

On December 31, 1990, Source Material License SUA-1401 expired. The licensee provided no correspondence prior to the expiration date concerning renewal or termination of the license. In accordance with the General Statement of Policy and Procedure for NRC Enforcement Actions, 10 CFR Part 2, Appendix C, the violation is listed below:

Title 10 of the Code of Federal Regulations, Part 40, Section 40.42 requires, in part, that "If a licensee does not submit an application for license renewal ... the licensee shall on or before the expiration date specified in the license" notify the Commission and request termination of the license, which includes submission of specific reports and information.

Contrary to the above, the licensee made no submittal of either an application for license renewal nor a request for termination of Source Material License SUA-1401 prior to its stated expiration date of December 31, 1990.

This is a Severity Level IV Violation (Supplement VII).
