V.A. Edward Hines, Jr. Medical Center  
Hines, Illinois

Docket No. 030-01391  
License No. 12-01087-07

As a result of the inspection conducted on December 21 through 28, 1990, and in accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C, (1989) (Enforcement Policy) the following violation was identified:

10 CFR 35.21(a) requires, in part, that the licensee, through the Radiation Safety Officer (RSO), ensure that radiation safety activities are being performed in accordance with approved procedures. The licensee's procedures for user facility inspections are described in the letter dated September 10, 1985, and were approved by License Condition 21 of License No. 12-01087-07. Item 3 of the September 10, 1985 letter requires, in part, that the Hospital RSO perform user facility inspections on a quarterly basis.

Contrary to the above, as of December 28, 1990, the licensee had not completed the user facility inspections for the fourth quarter of 1990.

Since the inspection determined that corrective actions had been taken, no response is required.
