SUBJECT: PRESENTATION OF PAPER AT THE 1991 MID-YEAR TOPICAL
 MEETING OF THE HEALTH PHYSICS SOCIETY

Enclosed for your approval is a copy of the paper which Charles S. Hinson plans to present at the subject meeting to be held in Raleigh, North Carolina on January 21-24, 1991. This paper, entitled "Exposure Control During High Maintenance Jobs," gives a brief summary of the declining collective doses at U.S. LWRs and describes some of the ALARA features which have resulted in a marked decrease in the dose accrued in the performance of selected high maintenance jobs in the U.S. This paper involves no new or unresolved policy issues and there are no conflicts between the author's views and documented NRC policies or positions.

Also enclosed is a completed NRC Form 426A.
