Midwest Inspection Services, Ltd.  
ATTN: Mr. Donald Paschen  
Post Office Box 3081  
Green Bay, WI 54303

License No. 48-16296-01

Gentlemen:

This refers to the routine safety inspection conducted by Mr. D. R. Gibbons and Ms. R. M. Douglas of this office on November 9, 1982, of activities authorized by NRC Byproduct Material License No. 48-16296-01 and to the discussion of our findings with you at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

During this inspection, certain of your activities appeared to be in non-compliance with NRC requirements, as specified in the enclosed Appendix. A written response is required.

Items of noncompliance Nos. 1 and 2 are repeat items. In your response to these items of noncompliance, please describe why your proposed corrective action is expected to be more successful in preventing future or similar non-compliance than the corrective action specified in your May 18, 1981 letter.

The responses directed by this letter (and the accompanying Notice) are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

*for Robert E. Burgin*  
D. G. Wiedeman, Chief  
Materials Radiation Protection  
Section 1
