Subject : Memo of November 2, 1990 - Docket No. 03004821
NRC License No. 21 - 04114 - 12

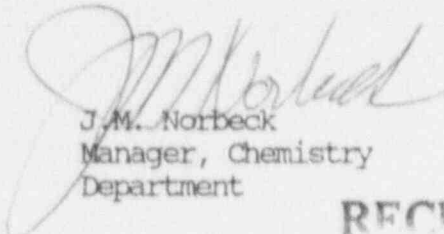

Dear Mr. Davis :

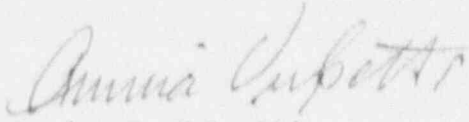

In response to your memo of November 02, 1990, requiring that we comply with CFR 30.35, of the NRC regulations, please be informed that all our radioactive unsealed sources have been disposed, and therefore, we deemed it unnecessary to submit a decommissioning of funding plan or a certificate of financial assurance for decommissioning. To date, we do not anticipate any future use of unsealed radioactive sources and, our Radiation Safety Committee is addressing amending our NRC license with necessary changes.

If you have any further questions regarding this information, please contact Annina T. Vulpetti on (313) 594-6956.

Thank You.

Sincerely,

J.M. Norbeck
Manager, Chemistry
Department
