Gentlemen:

SUBJECT: DEMAND FOR INFORMATION LETTER DATED NOVEMBER 2, 1990

The above referenced document required that you respond to us within 30 days regarding your compliance with 10 CFR 30.35. After further review of your license, we have determined that the type, form, and quantity of material currently authorized does not warrant the development and submittal of a decommissioning funding plan, or certification of financial assurance as described in 10 CFR 30.35 (copy enclosed). We have concluded that you are in compliance with 10 CFR 30.35, "Financial Assurance and Recordkeeping for Decommissioning." You need not take any further action regarding this matter.

If your future program changes regarding the type, form, and quantity of material possessed, then it will be necessary for you to re-evaluate your compliance with 10 CFR 30.35.

Be advised that all licensees, regardless of possession limits, are required to keep records relative to information which the Commission considers important to decommissioning pursuant to Section 30.35(g).

If you have any questions or require clarification on any of the information stated above, you may contact us at (708) 790-5625.

Sincerely,
