RE: MATERIAL LICENSE # 34-05488-01

Dear NRC Inspector:

To the best of my knowledge we are exempt from the requirements in 10 CFR 30.35 since our teletherapy license only allows for 4,600 curies of ⁶⁰Cobalt which is well under the 10,000 curie limit for sealed sources. We hope this satisfies your demand for information notice and if you have any further questions, please contact me at (614) 297-4115. Thank you.

Respectfully,

George O. Faerber, D.O.
Radiation Safety Officer
Doctors Hospital
