UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

January 16, 1991

Mr. J. Edward Peters, Jr.
Slayter Box 1831
Denison University
Granville, Ohio 43023

Dear Mr. Peters:

I tried to call you to respond to your request of December 6, regarding information on energy production in the United States. The Nuclear Regulatory Commission does not maintain the kind of information you are seeking. The majority of this information can be obtained from the U.S. Department of Energy. The source to contact is:

Energy Information Administration
Office of Energy Markets and End Use
U. S. Department of Energy
Washington, DC 20685

I have one comment on your Nuclear Power Plant outline. The government does not subsidize insurance premiums. This program, if it could be called a subsidy, was phased out by design in 1982. All premiums are now paid by reactor licensees.

Darrel A. Nash, Section Chief
Policy Development and Financial Evaluation Section
