

NRC PDR

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

January 4, 1990

MEMORANDUM FOR: Dennis M. Turner, Section Chief
Procurement Section
Property and Procurement Branch
Division of Contracts Property
Management
Office of Administration

FROM: Darrel A. Nash, Section Chief
Policy Development and Financial
Evaluation Section
Policy Development And Technical
Support Branch
Office of Nuclear Reactor Regulation

SUBJECT: SOLE SOURCE JUSTIFICATION FOR THE SUBSCRIPTION TO REGULATORY
FOCUS, A PUBLICATION OF REGULATORY RESEARCH ASSOCIATES

The need is for very timely information on pending and completed cases before state regulatory commission relating to economic performance incentive programs. NRC tracks these cases to determine if action of any kind is needed to avoid safety problems which may be created by the imposition of these programs on power reactor licensees.

I had a search done on an integrated eight (local) university library catalogue and did a personal search of the NRC Library catalogue. I did not find another reasonably available source that provided reports at the level of detail on individual cases and in the time frame that we need. Therefore, to the best of my knowledge, this is the sole source of the needed information.

Darrel A. Nash
