Mr. Carlo L. Caso, General Manager
Nuclear and Advanced Technology Division
Westinghouse Electric Corporation
Post Office Box 355
Pittsburgh, Pennsylvania 15230

Dear Mr. Caso:

This letter confirms the dates of January 28-31, 1991, for an NRC inspection at the Westinghouse Electric Components Division, Beaver, Pennsylvania, and January 30, 1991, at the Westinghouse Electric Supply Company, Murrysville, Pennsylvania. These dates were discussed in a January 17, 1991, telephone conversation between Messrs. D. E. Rygg, R. W. Riling, and B. F. Barnett of the Westinghouse Nuclear Services Division and Mr. Richard C. Wilson of the NRC. The inspection will address manufacture, handling, storage, and safety-grade dedication of molded case circuit breakers supplied to NRC licensees by the Replacement Component Services Operation (RCS) of NSD. We are coordinating the inspection with Messrs. D. E. Rygg and R. W. Riling of RCS engineering management.

We look forward to your full cooperation during this inspection. Please contact me or Mr. Richard C. Wilson at 301/492-0997 if you have any questions.

Sincerely,

Edward Baker, Acting Chief
Vendor Inspection Branch
Division of Reactor Inspection
and Safeguards
Office of Nuclear Reactor Regulation
