Gentlemen:

Enclosed is a copy of the report entitled "Passive ALWR Source Term." This report is submitted by the ALWR Program to provide technical support for the updated design basis source term requirement contained in Volume III, Chapter 5 of the Utility Requirements Document.

The source term update is an important ALWR initiative, and we look forward to continuing dialogue with the staff and ultimate resolution of their initiative in the Passive ALWR Requirements Document SER.

If you have any questions, please call John D. Trotter at EPRI, (415) 855-2786.

Sincerely,

E. E. Kintner, Chairman  
ALWR Steering Committee
