SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)
DOCKET NO. 50-445 AND 50-446
TRANSMITTAL OF SECOND HALF 1990 FITNESS-FOR-DUTY
PROGRAM PERFORMANCE DATA

Gentlemen:

As directed by 10CFR26.71(d), enclosed is the CPSES Fitness-For-Duty Program Performance Data for the period of July 1, 1990 through December 31, 1990. Included in the enclosed data are: a point of contact for personnel, random testing program results, confirmed positive tests summary and a management summary which includes the list of events reported. If there are any questions please contact the Licensing Engineer, Greg Bell at (214) 812-4373, or the contact listed in the enclosure.

Sincerely,

William J. Cahill, Jr.

TUELECTRIC

COMANCHE PEAK STEAM ELECTRIC STATION
FITNESS FOR DUTY
SUMMARY OF MANAGEMENT ACTIONS
Six Months Ending December 31, 1990

Daily activities of the Fitness For Duty Program have been performed with minimum problems.

The Fitness For Duty Management conducted internal reviews of the program to ensure compliance with 10CFR26. All reviews were positive. One review indicated that the selection rate should be high enough (150%) to ensure that 100% of the annual base is tested.

No events were reported by telephone under 10CFR26.

One TU Electric employee was removed from unescorted access and formally referred to EAP after a positive random test for alcohol. After participating in the Employee Assistance Program for approximately one and one-half months and establishing management and medical assurance of the individual's fitness to adequately perform the assigned work, the individual was returned to unescorted access.
