Dear Mr. Haughney:

Proposed organizational changes to Special Nuclear Material License No. SNM-33 were described in Combustion Engineering's amendment request of November 14, 1989 (Reference A) and supplement of December 20, 1989 (Reference B) for our Hematite Fuel Manufacturing Facility. Mr. George Bidinger sent a letter (Reference C) requesting more information concerning the proposed organizational changes. Mr. Harold Eskridge of our Hematite plant and I have discussed the additional information needed with Mr. Sean Soong, and this revision package reflects our response to Mr. Bidinger's letter. We recognize there was some delay in responding and apologize for any inconvenience.
