Umctco hereby requests that License Condition 26 be amended to allow the inclusion of these items in the yearly Technical Evaluation and Inspection Report:

1. Freeboard limits have not been exceeded during the report year.
2. An evaluation of surface water control structures.
3. The dry tons placed in Cell 3, as per the procedure approved in the January 10, 1989 submittal.
4. The report will also contain a summary of the inspection observations for the time period since the last report. The summary will simply consist of a collection of the data sheets used in the weekly, monthly, and quarterly inspections.
5. The report will be submitted for NRC review on or before November 30 on an annual basis.
