Dear Mr. Caniano:

RE: Correction of violation for license number 24-20454-01

In your letter of February 1, 1991 you found us in violation of the personnel external exposure monitoring that is published in appendix D of regulatory guide 10.8 revision 2.

To correct this we have on the 25th of January, 1991 secured from Landauer of Glenwood, Illinois total values for the personnel involved in doing the bone densitometry studies. A copy of our order from Landauer is enclosed and you will note that we are using the total body monitoring values. This will be done until your office feels it is no longer necessary. In six months we will let you know the results of this and should we fail to do this please don't hesitate to write or ask.

Should you require monthly reports, again please don't hesitate to write or ask. Should you need additional proof that this is what we are doing please advise.

Hoping this satisfies all the deficiencies mentioned in your letter.

With Kindest Regards,

Charles J. Rudolph, D.O., Ph.D.
