AN ELECTRIC SYSTEM SERVING THE HEART OF CALIFORNIA

AGM/NUC 91-011

January 28, 1991

U. S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, DC 20555

Docket No. 50-312
Rancho Seco Nuclear Generating Station
License No. DPR-54
CHANGES TO THE RANCHO SECO ORGANIZATION

Attention: Seymour Weiss

As discussed in meetings with the NRC in 1990, the District has now consolidated the nuclear organization. See the attached functional organization chart showing the current organization. The changes of most significance are:

- Licensed Operator Training and Security are a responsibility of Nuclear Operations.
- General Employee Training and Fire Brigade Training are the responsibility of the Manager, Radiation Protection/Emergency Preparedness, Environmental Monitoring and Chemistry.

The District has determined the changes are consistent with the current Rancho Seco Technical Specifications.

Members of your staff with questions requiring additional information or clarification may contact Jerry Delezenski at (209) 333-2935, extension 4914.

Sincerely,

Dan R. Keuter
Assistant General Manager
Nuclear
