U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Emergency Plan
University of Washington Nuclear Reactor
License R-73
Docket No. 50-139

Dear Sir:

Enclosed are 10 copies of the letter from the Seattle Fire Department which is referred to in Section 3.3 of our Emergency Plan. The letter arrived today so it was not included in our first mailing to you on November 4, 1982. Please attach the letter to our plan.

Sincerely yours,

William S. Chalk, Director
Nuclear Engineering Laboratories

Mr. William S. Chalk, Director
Nuclear Engineering Laboratories
University of Washington FD-10
Seattle, WA 98195

Dear Mr. Chalk,

This letter hopefully will answer your concerns expressed in your letter of October 27, 1982.

The Seattle Fire Department will respond to all fire alarms or emergencies at your facility and if in the event injuries or contamination to personnel do occur, we will transport the patients primarily to Harborview Medical Center or if Harborview Medical Center is unable to accept the patient or patients, they will then be transported to the University of Washington Hospital.

I hope this will provide the necessary documentation to meet the requirements of the Nuclear Regulatory Commission.

If I can be of additional assistance, please call me.

Sincerely,

A handwritten signature in cursive script that reads "Robert L. Swartout".

Robert L. Swartout, Chief
Seattle Fire Department
