Mr. Donnie H. Grimsley  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Grimsley:

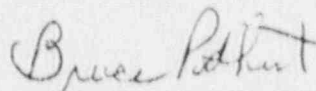

FREEDOM OF INFORMATION ACT REQUEST

We are the owners of a piece of property on which, in the past, uranium was stored under a license from the NRC. The license number was SMC-1377, the docket number was 040-08760, the licensee was Edlow International Company, and the address of the property was 3131 St. Clair Avenue, East St. Louis, IL.

We would like to obtain copies of the documents pertaining to the final inspections of the site and the termination of the license. We attempted to obtain these from the Public Document Room and were informed that they were not available there and that we would need to make a FOIA request. The documents we would like are:

1. Letter dated 8/23/85 from Edlow (licensee) to NRC giving the results of their inspection and requesting termination of license.
2. Report of NRC inspection of site just prior to the termination of the license and the release of the site for unrestricted use.
3. Any other documents pertaining to the termination of the license and the release of the site for unrestricted use.

Sincerely,

  
Bruce Podhurst
