CONVERSATION

SUBJECT

RETURNING CALL REQUESTING MEETING WITH DR. KNAPP

EX

He pointed out a technical error in a letter from Stello to the Commission in 1987 where a figure given as 200 m²/hr should be 200 microm²/hr.

He expressed a great desire for a face-to-face meeting. I said that there is no purpose to be served by a meeting and the time spent discussing such a meeting was keeping me from responding to their written questions.

He said that he would discuss further the need for a meeting with others who had an interest in RTI and had suggested a meeting. I said that for my part I would get a written response to them as quickly as I could.
