Gentlemen:

Subject: Routine Inspection No. 91-001

On January 14-15, 1991, Frances Costello of this office conducted a routine safety inspection at the above address of activities authorized by the above listed NRC licenses. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. In addition, our inspection examined the activities covered in your correspondence dated March 24, 1989. The findings of the inspection were discussed with you and members of your staff at the conclusion of the inspection.

Based on discussions at the conclusion of the inspection, we understand that you are modifying your radioactive materials package receipt procedure to ensure that each package is recorded when received. We will review this matter during our next inspection.

Within the scope of this inspection, no violations were identified.

In accordance with Section 2.790 of the NRC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room. No reply to this letter is required.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:
John D. Kinneman
