Dear Mr. Martin:

Subject: Docket Nos. 50-361 and 50-362
Temporary Waiver of Compliance
Steam Generator Level Instrumentation
San Onofre Nuclear Generating Station, Units 2 and 3

Reference: Letter from H. E. Morgan (SCE) to Mr. J. B. Martin
(USNRC), dated February 8, 1991.

The reference letter documented a request for a Temporary Waiver of Compliance from portions of Technical Specification 3.3.1 (Reactor Protection Instrumentation) and 3.3.2 (Engineered Safety Feature Actuation System Instrumentation) for Steam Generator Level Instrumentation. The purpose of this letter is to inform you that the actions specified in the reference to reset the steam generator level instrument setpoints for SONGS 2 and 3 were completed on February 9, 1991, thus placing each unit in full compliance with the Technical Specifications.

If you have any questions or require any additional information, please call me.

Sincerely,

H E Morgan
