UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION I  
631 PARK AVENUE  
KING OF PRUSSIA, PENNSYLVANIA 19406

Docket No. 50-293

AUG 19 1982

Boston Edison Company M/C Nuclear  
ATTN: Mr. William D. Harrington  
Senior Vice President, Nuclear  
800 Boylston Street  
Boston, Massachusetts 02199

Gentlemen:

Subject: Systematic Assessment of Licensee Performance (SALP)

On August 12, 1982, the NRC Region I SALP Board reviewed and evaluated the performance of activities associated with the Pilgrim Nuclear Power Station. The results of that assessment are documented in Enclosure (1). A meeting has been scheduled for 9:00 a.m., September 1, 1982 at your nuclear corporate offices in Braintree, Massachusetts to discuss the assessment. That meeting is intended to provide a forum for candid discussions about your performance.

At the meeting, you should be particularly prepared to address plant operations and fire protection/housekeeping. Also, any comments you may have regarding our report may be discussed.

Please inform us in writing, within 20 days after our SALP meeting, of those actions you have taken or will take to improve your performance. Additionally, you may include any comments you may have regarding the SALP report.

After we receive your response, we will place it, the enclosed report, and a summary of our findings and planned actions in the NRC Public Document Room.

Your cooperation with us is appreciated.

Sincerely,

Richard W. Starostecki, Director  
Division of Project and Resident  
Programs

Enclosure: As stated
