ASSISTANT COUNSEL

Mr. A. Schwencer, Chief
 Licensing Branch No. 2
 Division of Licensing
 U.S. Nuclear Regulatory Commission
 Washington, D. C. 20555

Subject: Limerick Generating Station, Units 1 and 2
 Request for Additional Information (RAI)
 from Instrumentation and Control Systems
 Branch

References: (1) Letter, A. Schwencer to E. G. Bauer, Jr.
 dated August 25, 1982
 (2) Letter, E. J. Bradley to A. Schwencer
 dated September 23, 1982

Dear Mr. Schwencer:

Your reference (1) letter requested that we arrange the subject RAIs into several groupings such that each grouping formed the basis for a meeting with your staff. Our reference (2) letter developed four groupings and a schedule for each meeting. Meeting I was held October 27-29, 1982, with your Instrumentation and Control Systems Branch. At the conclusion of the meeting, it was agreed that an expedited schedule for future meetings would be desirable.

3001

Mr. A. Schwencer
Page 2

Accordingly, we have grouped the RAIs not addressed in Meeting I into two groups for our future meetings.

Meeting II RAIs are concerned with the adequacy of basic plant design. RAIs to be discussed at that meeting are:

421.4	421.31	421.42
421.7	421.32	421.43
421.8	421.33	421.45
421.10	421.34	421.46
421.18	421.37	421.48
421.20	421.38	421.52
421.27	421.39	421.54
421.28	421.40	421.56
421.29		

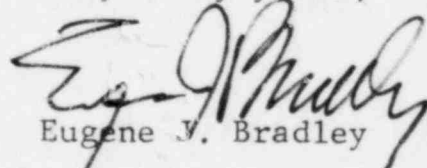

Meeting III RAIs are concerned with details of system designs. RAIs to be discussed in that meeting are:

421.11	421.30	421.49
421.15	421.35	421.55
421.16	421.36	421.57
421.19	421.41	421.59
421.25	421.47	

Schedules for the above meetings will be developed in consultation with your Instrumentation and Control Systems Branch via Dr. Harvey Abelson.

Per your request, at least two weeks in advance of each meeting, we will provide you with the appropriate drawing numbers (or drawings, if not previously submitted) to be discussed.

Very truly yours,

Eugene V. Bradley
