Dear Sir:

On July 21, 1982, the updated Final Safety Analysis Report (FSAR) for the Pilgrim Nuclear Power Station was submitted in compliance with 10 CFR 50.71(e). An errata was also submitted in an effort to identify last minute additions and/or mistakes discovered in the FSAR. As noted in the FSAR submittal letter, replacement sheets which reflected these changes would be submitted shortly. Please find enclosed replacement sheets for the thirteen (13) sets of FSAR's submitted earlier.

Very truly yours,

J. Edward Howard
