Gentlemen:

Subject: Inspection No. 030-02437/90-001

This refers to your letter dated December 10, 1990, in response to our letter dated November 28, 1990.

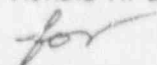

Thank you for informing us of the corrective and preventive actions documented in your letter. These actions will be examined during a future inspection of your licensed program.

Item A of your letter states that the NMT's have incorporated the use of blue and white labels for labeling syringes containing radiopharmaceuticals. After preparing a dosage, the abbreviated name of the radiopharmaceutical is written on the label. 10 CFR 35.60(b) also requires that in addition to the abbreviation either the clinical procedure or patients name be indicated. Please confirm that your labels will include all information as required by 10 CFR 35.60(b).

Your cooperation with us is appreciated.

Sincerely,
