Subject: Docket No. 99900378/81-01

Gentlemen:

This letter contains Namco Controls' request for an extension on our response to the Nuclear Regulatory Commission's Docket No. 99900378/81-01, Appendix B - Notice of Nonconformance, Items A, B, C, D, G and H.

We are requesting an extension because we have recently moved our manufacturing facility from Jefferson, Ohio to Newton, North Carolina. Due to the relocation and replacement of personnel, the procedures that were to have been written are not yet completed.

We are in the process of rewriting and reorganizing our Quality Assurance Manual, which will incorporate the corrections and procedures recommended. We expect to have this completed within the next six months.

If you have any questions, please feel free to call Frank Napoli at 704-465-3150.

Very truly yours,

N. E. Swanson
