SUBJECT: CONCURRENCE ON PROPOSED RULE - RADIATION  
 PROTECTION REQUIREMENTS; AMENDMENTS DEFINITIONS  
 AND CRITERIA

We have reviewed the proposed rule package on 10 CFR Part 20 that was forwarded to the Office of Nuclear Material Safety and Safeguards (NMSS) under memorandum dated September 22, 1993, the mark-up version that was hand delivered to the Operations Branch on October 12, 1993, and the mark-up version that was E-mailed on October 13, 1993. NMSS does not have any significant problems with the rule package as it currently appears however, we are aware that there are still some unresolved issues that were raised by other NRC Offices. It is our understanding that these issues will be resolved during a working group meeting that will be held during the week of October 18, 1993. NMSS will provide office concurrence after our review of the final rule package.
