NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

8/8/84

MEMORANDUM FOR: William Miller, Chief
Licensee Fee Management Branch
Office of Administration

FROM: Elliott A. Greher, Program Analyst
Program Support and Analysis Staff
Office of Inspection and Enforcement

SUBJECT: REQUESTED LICENSE FEE INFORMATION

We have reviewed available records on IE staff effort -- staff or IE consultants assigned to IE headquarters or to the Technical Training Center -- devoted to license fee-billable efforts for the reactor license BYRON 2, docket number 50-454 during the period 12/31/75 to 6/23/84.

- () There is no record of IE staff effort.
- () There is IE staff effort and it is all devoted to IE functions. A total of _____ hours of effort is recorded. See enclosed computer run for the details.
- () There is IE staff effort and it is all devoted to regional functions. The appropriate computer run has been mailed to region _____.
- (X) There is IE staff effort and it is devoted in part to IE functions. A total of 885.0 hours of effort is recorded. See enclosed computer run for details. There is also IE staff effort devoted to regional functions. The appropriate computer run has been mailed to region III.
- (X) We are still searching available contractor cost records and expect to provide that information to you and to the regions, as appropriate within three weeks.
- () There is no record of IE computer costs.
- () There are IE contractor costs. See enclosed information.

Docket No. 50-332

JAN 24 1985

Louisiana Power & Light Company
ATTN: Mr. R. S. Leddick
Vice President, Nuclear Operations
142 Delaronde Street
New Orleans, Louisiana 70174

Gentlemen:

As you are aware, 10 CFR 170 of the Commission's regulations for license and inspection fees was revised effective June 20, 1984. Section 170.12(b) of the revised rule provides that for applications for permits, licenses, facility reference design approvals, and special projects which have been on file with the Commission for review for six months or longer, the first bill for accumulated review costs would be sent to the applicant at the time the rule becomes effective and thereafter at six-month intervals or when the review is completed, whichever is earlier. The first bill for the operating license (OL) review will include applicable professional staff review time expended through June 23, 1984, and contractual support services expended to May 31, 1984. Subsequent bills covering six-month reviews will be issued approximately ninety days after the end of each six-month period which closes in December and June of each year.

Consistent with the requirements of 10 CFR 170.12(b), we have completed the cost analysis for the Waterford 3 OL application review for the period specified above. The cost through that period is \$4,100,044. The cost of the OL review through June 23, 1984 exceeds the maximum fee of \$3,077,400 that may be assessed in accordance with 10 CFR 170.21 (Footnote 2). Accordingly, the Office of Resource Management has been notified to bill your Company for \$3,077,400. Since your Company received an operating license (5% power) on December 18, 1984, \$3,077,400 is the total that may be assessed for the OL review through issuance of the 100% operating license. When making payment, please make reference to the invoice number on your bill. For your information, applications for license amendments and other approvals are subject to fees in accordance with the provisions of 10 CFR 170.12(c) and 170.21.

September 25 1984 2:37

MEMORANDUM FOR: Patricia G. Norry, Director
Office of Administration

FROM: Jesse L. Funches, Director
Planning and Program Analysis Staff
Office of Nuclear Reactor Regulation

SUBJECT: 10 CFR 170 NOTE OF FINAL RULEMAKING - REQUESTED LICENSE
FEE INFORMATION

Enclosed is the NRR response to your memorandum of July 3, 1984. Our response includes: 1) a listing of the dockets for which we have assembled data; 2) the professional staff hours that have been reported to the RAMS system, by docket, indicating regular and non-regular hours, and any hearing effort reported, covering the period between Construction Permit issuance and June 23, 1984; 3) a listing of plants that have had contested hearings; 4) a listing of casework plants that have associated PRA review effort, including hours reported and associated FIN numbers; 5) a listing of all identified contract effort for all dockets that have specific technical assistance charges, with PRA review effort charges identified; and 6) a listing of professional staff hours reported and contract costs for topical reports. Not included are contract costs for FINs covering one or more non-docket specific topical reports for the period 10/1/83 - 6/30/84, which will be forwarded to you under separate cover when software fixes to the TAPSS system are completed.

Enclosure 1 is a list of all OL applications currently on file and applications for standard design reviews that we have gathered the information you requested. For EPR1 SDA and FNP 1-8, the Project Managers have decided that these projects are not fee-recoverable.

Enclosure 2 indicates professional staff hours for each docket that was reported in the RAMS system from the date of the Construction Permit issuance through June 23, 1984. Regular and non-regular professional staff hours are indicated. From the total hours shown, hearing effort, is broken out. To the extent feasible, data on hours that were reported have been reviewed by the Project Managers. However, in some instances where there are hours charged many years ago, there is no basis for reviewing hours reported, and these hours are included as they are reported in RAMS.

Enclosure 3 indicates a listing of plants that have had contested hearings.

841010054

Enclosure 4 is a listing of Casework plants that have associated PRA review effort, showing professional staff hours reported in RAMS and any associated FIN numbers.

Enclosure 5 lists all identified contract effort for all dockets that have specific technical assistance charges. The first part indicates charges through September 30, 1983. The printout indicates any associated charges by docket for the period October 1, 1983 through May 30, 1984. As you are aware, technical assistance charges are reported on a monthly basis, not weekly, therefore these charges are through May 30, 1984 instead of June 23, 1984. PRA review effort is identified.

Enclosure 6 is a printout listing professional staff hours reported and contract costs associated with topical reports submitted after March 23, 1978 and still being reviewed through June 23, 1984. Contract costs for non-docket-specific topical reports for the period 10/1/83 - 6/30/84 are not available at this time. They will be submitted at a later date.

Please contact Lars Solander of my staff if you have any questions.

Jesse L. Funches, Director
Planning and Program Analysis Staff
Office of Nuclear Reactor Regulation
