ORDER TERMINATING PROCEEDING

I

Indo-American Engineering, Inc., P.O. Box 1813, Rock Springs, WY 82902, (the "licensee") is the holder of Byproduct Material License 49-26839-01 ("the license") issued by the Nuclear Regulatory Commission ("the Commission"). The license authorizes the possession and use of byproduct material under certain conditions specified therein. The license was originally issued on August 29, 1986. The present expiration date of the license is August 31, 1991.

II

On February 18, 1988, the licensee's activities, authorized by License 49-26839-01 and located at 300 "C" Street, Rock Springs, WY, were inspected by a representative(s) of the NRC Region IV Office for health and safety purposes. On March 21, 1988, the Commission sent Invoice 0617B to the licensee requesting payment within 30 days of the inspection fee of \$530 required by 10 CFR 170 of the Commission's regulations. A second notice of payment due was sent to the licensee on May 9, 1988. A final notice of payment due was sent to the licensee on May 19, 1988. The fee remained unpaid.

Consequently, on September 19, 1990, the Director, Division of Accounting and Finance, Office of the Controller, issued an Order to Show Cause ("the Order"), directing the licensee to show cause why the license should not be revoked permanently. As an alternative to filing an answer, the Order provided that, if payment of the fee was made within 20 days of the date of receipt of the Order, the Commission would issue a subsequent Order terminating the revocation proceeding. In response to the Order, the licensee followed this alternative procedure and paid the inspection fee.

III

Accordingly, in view of the payment of the inspection fee under the terms of the Order, and, pursuant to the Commission's "Rules of Practice" in 10 CFR Part 2, IT IS HEREBY ORDERED THAT:

This proceeding is terminated.
