Docket Nos.: STN 50-454
 and STN 50-455

MEMORANDUM FOR: S. Hanauer, Director, Division of Safety Technology, NRR
 R. Vollmer, Director, Division of Engineering, NRR

FROM: Darrell G. Eisenhut, Director, Division of Licensing, NRR

SUBJECT: NEED FOR ADDITIONAL WITNESS DESIGNATIONS FOR BYRON OL
 PROCEEDING

On October 20, 1982, a meeting was held by J. Scinto, S. Goldberg and R. Rawson (OELD) and A. Thadani and L. O'shan (NRR) to discuss preparation of testimony in response to League of Women Voters of Rockford Contentions 8 and 62 on the subject of probabilistic risk assessment on the Byron OL proceeding. Copies of these contentions are attached. Information gathered in preparation for the Indian Point hearings has led to consideration of the need to include in Byron testimony on these contentions analyses beyond those now contained in the Byron Final Environmental Statement. The effort required for this undertaking may be substantial.

We ask that you assign appropriate witnesses from the Reliability and Risk Assessment Branch and the Division of Engineering, respectively, to assist in the preparation of such testimony. Since this testimony must be filed by February 15, 1983, it is important that an early meeting be held and work begun on this task. Please contact the Project Manager, L. Olsan (x28929), for further information.
