MEMORANDUM FOR: Roger J. Mattson, Director
Division of Systems Integration

Richard H. Vollmer, Director
Division of Engineering

FROM: Darrell G. Eisenhut, Director
Division of Licensing

SUBJECT: NEED FOR ADDITIONAL WITNESS DESIGNATIONS FOR
BYRON OL PROCEEDING ON CONTENTIONS 28 AND 63

Contention 28 in the Byron OL proceeding raises a question concerning the analysis of potential adverse systems interactions; Contention 63 concerns the analysis and classification of plant structures, systems and components. Copies of these contentions are attached.

At present, witnesses have been assigned from the Reliability and Risk Assessment Branch (F. Coffman) and the Reactor Systems Branch (W. Jensen). OELD case attorneys have asked that additional witnesses be assigned from Mechanical Engineering Branch, Quality Assurance Branch, and Instrumentation & Control Systems Branch to address these contentions.

We ask that you assign appropriate witnesses from these branches. Please contact the Project Manager, L. Olshan (x28929), for further information.

DSI
Darrell G. Eisenhut, Director
Division of Licensing
