STONE & WEBSTER (S&W)

Recently, questions have been raised concerning the use of the Stone and Webster Company (S&W) to conduct an appraisal of underpinning of the Midland auxiliary building. A public meeting regarding these issues, among others, was conducted in Washington on November 5, 1982.

During that meeting, representatives of the NRC Staff asked certain questions touching upon the independence of the Stone and Webster Company. To respond more fully to these questions, Consumers asked Stone & Webster to describe jobs undertaken by S&W on behalf of Consumers Power Company and to determine S&W's holdings of Consumers' securities. The attached letter is S&W's response to those questions.

According to the attached letter, Stone & Webster has carried out, and is carrying out, no work for Consumers Power Company in relation to the soils remedial project, other than the present audit. S&W has undertaken two relatively limited assignments not related to soils on behalf of the Midland Project. The letter also indicates that Stone & Webster's or its subsidiaries have no holdings of Consumers Power Company stocks.
