NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

March 10, 2020

Mr. Dan Tallman
Manager, Rancho Seco Assets
Sacramento Municipal Utility District
Rancho Seco Nuclear Generating Station
114440 Twin Cities Road
Herald, CA 95638-9799

SUBJECT: FINAL ENVIRONMENTAL ASSESSMENT FOR THE LICENSE RENEWAL OF
THE U.S. NUCLEAR REGULATORY COMMISSION LICENSE NUMBER:
SNM- 2510 FOR RANCHO SECO INDEPENDENT SPENT FUEL STORAGE
INSTALLATION (DOCKET NUMBER: 72-0011)

Dear Mr. Tallman:

The U.S. Nuclear Regulatory Commission (NRC) staff has completed its Final Environmental Assessment (EA) for the Sacramento Municipal Utility District license renewal request of the Rancho Seco Independent Spent Fuel Storage Installation located on the Rancho Seco Nuclear Generating Station in Sacramento County, California. The NRC staff has concluded that approval of the proposed license renewal for a period of 40 years would not significantly affect the quality of the human environment. Accordingly, an Environmental Impact Statement is not required and a Finding of No Significant Impact (FONSI) is appropriate. Enclosed is the Final EA and associated FONSI. This information will be published in the *Federal Register* on or about March 06, 2020.

In accordance with Title 10 of the *Code of Federal Regulations* 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room (PDR) or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Website at <http://www.nrc.gov/reading-rm/adams.html>. Other documents related to this action can also be found in the NRC PDR or ADAMS.

D. Tallman
