Dear Mr. Hurd:

This is in reference to Docket No. 70-133.

It is my understanding that Clevite Corporation has requested an amendment to its license. This amendment concerns the decontamination of an area and the disposal of associated contaminated materials and equipment.

This Office would appreciate your assistance in obtaining the Clevite request and any guide lines that you might provide them concerning radiation levels of fixed and removable contamination, which you would consider to be acceptable for uncontrollable release.

Sincerely yours,

Robert D. Vessels
