Vice President - Nuclear Operations  
P. O. Box 26665

Gentlemen:

By letter dated November 9, 1982, the Division of Licensing (DL) staff approved your application dated November 8, 1982, and issued Amendment No. 44 to Facility Operating License No. NPF-4 for the North Anna Power Station, Unit No. 1. This application proposed certain Technical Specification changes relating to Type C testing of isolation valves. Although your application stated that a Class II fee was being remitted, the check was in the amount of \$1,600.

Based on information provided by the DL staff as the result of their final review of your application, it has been determined that a Class II fee (\$1,200) is appropriate for your November 8 application.

Since the check received was for \$1,600, a refund of \$400 is appropriate. We have concurrently authorized the Division of Accounting and Finance to make the refund of \$400 to your Company. Refunds are generally processed within a two-week period.

Sincerely,

Original Signed by:
