SUBJECT: Arkansas Nuclear One - Unit 2
Docket No. 50-368
License No. NPF-6
Revision to Commitment in LER 50-368/90-014-01

Gentlemen:

This letter is being provided to document a change in a commitment discussed with Mr. Tom Westerman, Region IV Section Chief, on January 16, 1991 regarding a revision to Procedure 1000.104, "Condition Reporting and Corrective Action" to provide additional clarification concerning the need for operations personnel to consider different plant operational conditions when performing operability determinations. Procedure 1000.104 has been revised; however, implementation of the procedure is being delayed until appropriate changes have been made to a related station administrative procedure. To address the specific commitment in the subject LER a permanent change has been implemented to the current revision of 1000.104. The commitment date was revised to be January 31, 1991.

Should you have further questions, you can contact me at 501-964-8601.

Very truly yours,

James J. Fisicaro
