Gentlemen:

Subject: Inspection Nos. 50-334/90-23 and 50-412/90-23

This letter transmits our report of the routine resident safety inspection by Mr. J. Beall at the Beaver Valley Power Station in Shippingport, Pennsylvania. The reporting period covers from December 1 - December 31, 1990. The inspection consisted of document reviews, interviews and observation of activities. The findings were summarized and discussed with you and members of your staff at the conclusion of the inspection.

During this inspection, two non-cited violations were identified. One involved the failure to follow a procedure. The other involved the failure to perform a surveillance test within the required periodicity. These occurrences were isolated events of minor safety significance and because of the adequacy of the actions you have taken, the violations are being classified as non-cited violations and no reply to this letter is necessary.

I appreciate your cooperation.

Sincerely,
