WASHINGTON, D. C. 20555

July 8, 1979

MEMORANDUM FOR: Ben C. Rusche, GPU

FROM: J. T. Collins, Deputy Director, TMI-2 Support

SUBJECT: DISPOSITION OF SLUDGE CAKE FROM THE IWFS AT TMI

As a follow-up to our discussions concerning the disposition of the sludge cake from the IWFS at TMI, I had members of our staff take a look at the analyses of the cake and using the results of the AIF de Minimus study try to formulate a method and rationale for disposing of this waste in a sanitary landfill. The attached comments contain the bases for such a decision. Following your review of the attached material I would suggest a meeting between our respective staffs to discuss the material in more detail.
