MEMORANDUM FOR: Staff Members
Divisions of Resident, Reactor Projects and Engineering Programs
and Radiological Safety and Safeguards Programs

FROM: R. G. Giliert, Director, Division of Resource Management
and Administration

SUBJECT: New MPS Program Activity Codes

Effective the week of January 31, 1983 the following activity codes are available for staff use. The addition of these codes to the manpower accounting system will enable us to further refine the reporting of effort expended on regionalized activities and will provide a closer tracking of time against significant budget elements. Until the MPS forms are modified to include these codes, write over an unused activity code on the appropriate docket or non-docket section of the forms.

Code

Title and Definition

AiE

Allegation Followup Effort.

All time spent preparing for, conducting and documenting that portion of special inspection effort devoted specifically to the handling of allegations. Any special inspection effort that can be credited toward completion of the routine inspection program is to be coded against PAP, DPI or DOC as appropriate (see item 5 Region V procedure NG.43).

EPL

Emergency Preparedness Licensing Effort.

All time spent on reviews, evaluations and processing of applications and information associated with emergency preparedness licensing activities.

EPI

Emergency Preparedness Inspection Effort.

All time spent on emergency preparedness inspection activities, including the reviews of drills and exercises. (Response to incidents and accidents will continue to be reported under RTI).

EPG

Emergency Preparedness General Report.

All time spent in general regional activities such as the development of response plans and facilities and time spent participating in drills and exercises.

The intent of codes EPL, EPI and EPG is to provide a means for accounting for all regional staff effort (EP coordinator and analysts, SLO, reactor inspectors and radiation specialists) devoted to various EP activities.

JAN 18 1985

The Cleveland Electric Illuminating Company
ATTN: Mr. Murray R. Edelman
Vice President - Nuclear Group
Post Office Box 5000
Cleveland, Ohio 44101

Gentlemen:

As you are aware, 10 CFR 170 of the Commission's regulations for license and inspection fees was revised effective June 20, 1984. Section 170.12(b) of the revised rule provides that for applications for permits, licenses, facility reference design approvals, and special projects which have been on file with the Commission for review for six months or longer, the first bill for accumulated review costs would be sent to the applicant at the time the rule becomes effective and thereafter at six-month intervals or when the review is completed, whichever is earlier. The first bill for the operating license (OL) review will include applicable professional staff review time expended through June 23, 1984, and contractual support services expended to May 31, 1984. Subsequent bills covering six-month reviews will be issued approximately ninety days after the end of each six-month period which closes in December and June of each year.

Consistent with the requirements of 10 CFR 170.12(b), we have completed the cost analysis for the Perry 1 and Perry 2 OL application reviews for the period specified above. The cost through that period is \$2,103,262 for Perry 1 and \$445,369 for Perry 2. The Office of Resource Management has been notified to bill your Company for this amount. When making payment please make reference to the invoice number on your bill.

Enclosed is a copy of the revision to Part 170 as sent to all applicants and licensees on May 24, 1984.

Sincerely,

Original Signed by
Wm. O. Miller

MEMORANDUM FOR: Files

THRU: William O. Miller, Chief, License Fee Management Branch, ADM

FROM: C. James Holloway, Jr., Assistant Chief, License Fee Management Branch, ADM

SUBJECT: PERRY 1 OPERATING LICENSE REVIEW COSTS

10 CFR 170 of the Commission's regulations for license fees was revised effective June 20, 1984. Section 170.12(b) of the revised rule provides that for applications for operating license (OL) review which have been pending with the Commission for six months or longer, the first bill for accumulated review costs would be sent to the applicant at the time the rule becomes effective and at six-month intervals thereafter until the review is completed, whichever is earlier. The first bills for OL review will include applicable professional staff review time expended through June 23, 1984, and contractual support services expended to May 31, 1984. Subsequent bills covering six-month reviews will be issued approximately ninety days after the end of each six-month period which closes in December and June of each year.

In accordance with Section 170.12(b), we have reviewed the cost incurred by the various program offices directly involved in processing the Perry 1 operating license. Attached is a summary of the review costs as well as the supporting documentation from the program offices. The attachment shows that a total of \$2,103,262 was expended through June 23, 1984 for the OL review.

Office of Nuclear Reactor Regulation

SUBJECT: 10 CFR 170 NOTE OF FINAL RULEMAKING - REQUESTED LICENSE
FEE INFORMATION

Enclosed is the NRR response to your memorandum of July 3, 1984. Our response includes: 1) a listing of the dockets for which we have assembled data; 2) the professional staff hours that have been reported to the RAMS system, by docket, indicating regular and non-regular hours, and any hearing effort reported, covering the period between Construction Permit issuance and June 23, 1984; 3) a listing of plants that have had contested hearings; 4) a listing of casework plants that have associated PRA review effort, including hours reported and associated FIN numbers; 5) a listing of all identified contract effort for all dockets that have specific technical assistance charges, with PRA review effort charges identified; and 6) a listing of professional staff hours reported and contract costs for topical reports. Not included are contract costs for FINs covering one or more non-docket specific topical reports for the period 10/1/83 - 6/30/84, which will be forwarded to you under separate cover when software fixes to the TAPSS system are completed.

Enclosure 1 is a list of all OL applications currently on file and applications for standard design reviews that we have gathered the information you requested. For EPR1 SDA and FNP 1-8, the Project Managers have decided that these projects are not fee-recoverable.

Enclosure 2 indicates professional staff hours for each docket that was reported in the RAMS system from the date of the Construction Permit issuance through June 23, 1984. Regular and non-regular professional staff hours are indicated. From the total hours shown, hearing effort, is broken out. To the extent feasible, data on hours that were reported have been reviewed by the Project Managers. However, in some instances where there are hours charged many years ago, there is no basis for reviewing hours reported, and these hours are included as they are reported in RAMS.

Enclosure 3 indicates a listing of plants that have had contested hearings.

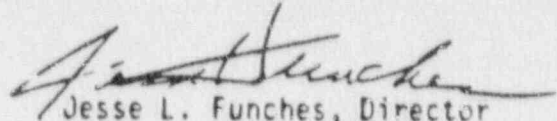

8410100654

Enclosure 4 is a listing of Casework plants that have associated PRA review effort, showing professional staff hours reported in RAMS and any associated FJN numbers.

Enclosure 5 lists all identified contract effort for all dockets that have specific technical assistance charges. The first part indicates charges through September 30, 1983. The printout indicates any associated charges by docket for the period October 1, 1983 through May 30, 1984. As you are aware, technical assistance charges are reported on a monthly basis, not weekly, therefore these charges are through May 30, 1984 instead of June 23, 1984. PRA review effort is identified.

Enclosure 6 is a printout listing professional staff hours reported and contract costs associated with topical reports submitted after March 23, 1978 and still being reviewed through June 23, 1984. Contract costs for non-docket-specific topical reports for the period 10/1/83 - 6/30/84 are not available at this time. They will be submitted at a later date.

Please contact Lars Solander of my staff if you have any questions.
