DEC 28 1984

Georgia Power Company  
 ATTN: Mr. Donald Foster  
 Vice President and Project General Manager  
 Post Office Box 299A, Route 2  
 Waynesboro, Georgia 30830

Gentlemen:

As you are aware, 10 CFR 170 of the Commission's regulations for license and inspection fees was revised effective June 20, 1984. Section 170.12(b) of the revised rule provides that for applications for permits, licenses, facility reference design approvals, and special projects which have been on file with the Commission for review for six months or longer, the first bill for accumulated review costs would be sent to the applicant at the time the rule becomes effective and thereafter at six-month intervals or when the review is completed, whichever is earlier. The first bill for the operating license (OL) review will include applicable professional staff review time expended through June 23, 1984, and contractual support services expended to May 31, 1984. Subsequent bills covering six-month reviews will be issued approximately ninety days after the end of each six-month period which closes in December and June of each year.

Consistent with the requirements of 10 CFR 170.12(b), we have completed the cost analysis for the Vogtle 1 and Vogtle 2 OL application reviews for the period specified above. The cost through that period is \$956,163 for Vogtle 1 and \$204,431 for Vogtle 2. The Office of Resource Management has been notified to bill your Company for these amounts. When making payment, please make reference to the invoice number on your bill.

Enclosed is a copy of the revision to Part 170 as sent to all applicants and licensees on May 24, 1984.

Sincerely,

Original Signed by:  
 Wm. O. Miller

William O. Miller, Chief  
 License Fee Management Branch  
 Office of Administration
