Atlanta, Georgia 30323

Re: NRC License No. 47-16156-01

Dear Ms. Butler,

Please be advised that the practice of Steven A. Artz, M.D., Nuclear Medicine Services, Inc, 3100 MacCorkle Avenue, Suite 911, Charleston, West Virginia intends to move to a new location.

Enclosed please find a sketch drawing of the new location as well as the new mailing address. Commitments to the existing radiation safety program will remain in effect.

Following the move to the new location, a close-out survey will be performed by P. Norman Fenton, Diagnostic Medical Health Physics, Nellysford, Virginia. The results of the survey will be forwarded to your attention. The "old" location will remain secured as a restricted area until notification/release by your office. Confirmation that the new location does not present a radiation risk to unrestricted areas in accordance with revised Part 20 will also be addressed in the information letter to you.

Transportation of all sealed sources/radioactive material will be performed by Steven Artz, M.D.. It is not anticipated that any material will be in excess of DOT transportation label II, therefore placarding of the car will not be necessary. As a precaution, shipping papers/emergency telephone numbers will be generated, maintained in the vehicle during transportation, and filed for review by regulatory officials.

11/22/93

If you have any questions, or if I may be of further assistance, please contact me at your convenience. Enclosed is a check in the amount of \$460.00 to cover administrative/amendment fees.

Sincerely,

Steven A. Artz, MD/bs 150032

Steven A. Artz, M.D.
