MAN 3 0 1991

Mr. Peter Columbo, Manager Waste Management R&D Brookhaven National Laboratory Building No. 703 Upton, L.I., NY 11973

Dear Mr. Columbo:

Enclosed are three copies of a draft of the full paper I have prepared for presentation at the 1991 Joint International Waste Management Conference on Low and Intermediate Waste Management in Seoul, South Korea. I apologize for missing the January 15, 1991, target date for submittal of the paper, but for the reasons we discussed by phone, it was not possible to meet that date. I very such appreciate, therefore, your extension of the deadline so that I could still submit the paper. I think it will prove to be of considerable interest to the meeting attendees and those who read the Conference Proceedings.

Sincerely, ORIGINAL SIGNED BY

Michael Tokar, Section Leader
Low-Level Waste Management Branch
Division of Low-Level Waste Management
and Decommissioning
Office of Nuclear Material Safety
and Safeguards
