Post Office Box 236

Dear Mr. Miltenberger:

SUBJECT: EXAMINATION REPORT NO. 50-354/93-29

During the week of December 13, 1993, the NRC administered initial examinations to employees of your company who had applied for licenses to operate the Hope Creek Nuclear Generating Station. The examinations addressed areas important to public health and safety and were conducted in accordance with Revision 7 (1/1/93) to NUREG-1021, "Operator Licensing Examiner Standards." At the conclusion of the examinations, the preliminary findings were discussed with those members of your staff identified in the enclosed report.

All applicants passed the examination and were generally well prepared for the examinations. Generic strengths and weaknesses, as well as other observations, are identified in the enclosed report.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Should you have any questions regarding this information, please contact Richard Conte at (215) 337-5210.

Sincerely,
