Dear Dr. Chuang:

Subject: Routine Inspection No. 030-32913/93-001

This letter refers to your December 01, 1993 correspondence, in response to our November 24, 1993 letter and to the telephone discussion between Mr. Frank Morse of your staff and Mr. Steven Courtemanche of this office on December 16, 1993.

Thank you for informing us of the corrective actions documented in your letter. These actions will be examined during a future inspection of your licensed program.

During the December 16, 1993 telephone discussion, Mr. Morse described the actions you have taken to prevent recurrence of the items of noncompliance detailed in our Notice of Violation enclosed in our November 24, 1993 letter. The actions taken are as follows:

- a. With respect to Items A. and C., a calendar reminder system has been set up to keep you informed of when a leak test or physical inventory will be required of your gauges, and;
- b. With respect to Item B., the Radiation Safety Officer shall keep track of new employees who take the manufacturer's training course and will place a copy of their training certificate in your user file as soon as the certificate becomes available.

These preventive actions will be examined during a future inspection of your licensed program.
