MEMORANDUM FOR: Robert S. Brown, Director
 Planning and Program Analysis Staff, NMSS

FROM: William O. Miller, Chief
 License Fee Management Branch ADM

SUBJECT: FULL POWER OPERATING LICENSES

The reactors listed below have received full (100%) power licenses. In your memoranda dated January 4 and January 31, 1985, you provided NMSS professional staff hours through June 23, 1984 for the reactors. In order for us to complete the cost assessment for each unit, please provide us with the NMSS professional regular staff hours and any contractual services cost data related to the issuance of the fuel storage materials license or any amendments to the fuel storage materials license. These data should cover the period of June 24, 1984 through the date of issuance of the full power license. Any time spent by NMSS during this same period relating to an application for amendment to the operating license should be assessed fees as an amendment and not as part of the 100% OL review.

| <u>Unit</u> | <u>Docket #</u> | <u>100% Power Issuance Date</u> | <u>License #</u> |
|-----------------|-----------------|---------------------------------|------------------------|
| Grand Gulf 1 | 50-416 | 8/31/84 | NPF-13 |
| Callaway 1 | 50-483 | 10/18/84 | NPF-30 |
| Diablo Canyon 1 | 50-275 | 11/2/84 | DPR-76, DPR-80 |
| Catawba 1 | 50-413 | 1/17/85 | NPF-24, NPF-31, NPF-35 |
| Byron 1 | 50-454 | 2/14/85 | NPF-23, NPF-37 |

Thank you for your assistance in this matter.
