MEMORANDUM FOR: Elliott A. Greher, Program Analyst  
Program Support and Analysis Staff, IE  
FROM: William O. Miller, Chief  
License Fee Management Branch, ADM  
SUBJECT: DIABLO CANYON 1 PROFESSIONAL STAFF HOUR DATA

We have reviewed the data transmitted to us on August 15, 1984 (enclosed), relating to the subject reactor. We note that 213 professional staff hours were identified as IE effort expended during FY 1983 (91 hours) and FY 1984 (122 hours) for licensing reactor activities (LRA Activity Code). The initial OL for Diablo Canyon 1 was issued on September 22, 1981. Therefore, the LRA time expended in FY 1983 and FY 1984 for emergency preparedness or quality assurance work should relate to a specific license amendment application. Please inform us of the specific applications relating the 213 hours expended so that amendment fees may be assessed in accordance with 10 CFR 170, if applicable.

Thank you for your assistance in this matter.
