RE: Cleveland Cliffs Iron Company, North Rolling Pin Site

Dear Mr. Smith:

In reference to your 5 November 1982 letter and its attached 5 November memorandum to the Cleveland Cliffs Iron Company (CCIC), it is my understanding that the NRC would not release the Source Material License for the North Rolling Pin site until the State of Wyoming had released Cleveland Cliffs Iron Company from all responsibilities. While it is true we have inspected the site and noted no obvious problems with the site, CCIC will not be completely released from all responsibilities until vegetation is established. This will most likely be in the spring or summer of 1983.

If you have any questions, please contact me.

Sincerely,

Richard A. Chancellor
District IV Engineering Supervisor
