Mr. Charles E. MacDonald, Chief
United States Nuclear Regulatory Commission
Transportation Branch
Division of Industrial and Medical Nuclear Safety, NMSSS
Washington, D.C. 20555

Dear Mr. MacDonald:

Subject: **Certificate of Compliance #71-9184**

The above referenced certificate of compliance for the model PAS-1 cask is due to expire on April 30, 1994. VECTRA Technologies requests that this certificate be renewed for another term with the only change, in what seems like a never ending evolution, being that of our company name and address. With the acquisition of ABB/Impell by Pacific Nuclear, on January 1, 1994, the company became known as VECTRA Technologies, Inc. The name and address on the above referenced certificate of compliance should be changed as follows:

From: Nuclear Packaging, Inc.
1010 South 336th Street
Federal Way, WA 98003

To: VECTRA Technologies, Inc.
One Harbison Way, Suite 209
Columbia, S.C. 29212-3408

The responsibility for this certificate of compliance has been transferred to the Columbia, South Carolina office. Please send any future correspondence regarding this document to my attention at the Columbia address.

Thank you in advance for your time and prompt consideration of this request. If you have any questions, or require further information, please do not hesitate to contact me at telephone number (803) 781-0426.

Sincerely,

A handwritten signature in cursive script that reads "G. Wes. Caughman".
